

Step Out of Your Mommy Body

Take Care of Yourself, Experience our Mommy Makeover!

A mommy makeover with **UltraSlim®** is a set of treatments that address the problems usually created by pregnancy.

UltraSlim® is the most powerful and effective device for non-invasive body contouring and beautiful skin, for any skin type or body type. No dieting, exercise, or downtime are required – you will love the impressive, **instant results!**

UltraSlim® achieves dramatic **immediate results**, while all other non-invasive body contouring technologies take months to see even minimal results.

As an added benefit, **UltraSlim®** has been shown to produce collagen and elastin fibers which benefit the appearance of younger and tighter skin, and help minimize the appearance of stretch marks.

None of the other non-invasive body contouring devices are as safe as **UltraSlim®**. Only **UltraSlim®** requires no exercise and has no pain, no side effects, and no adverse outcomes.

And you will lose at least 2" of fat at your very first **UltraSlim®** treatment or your money back. Guaranteed!*

Baby First, Body Next. Now, It's Time For You.

Hannah lost a total of 11 pounds, 1657cc, which is 1.66L of fat off her waist, hips, and thighs, with 12 UltraSlim® treatments!

"After the birth of my baby, I had to wear maternity clothing for a month. Once I began my UltraSlim® treatments, I was immediately able to wear my regular pants. Now after just 12 UltraSlim® treatments, I am able to fit into my goal pants, that do not have any elastic in them at all! I feel great now and look forward to my next set of UltraSlim® treatments! My next goal is to get back to my pre-pregnancy body." - Hannah W.

Now, Make Yourself A Priority

After you have had your child, you may encounter a number of concerns such as stretch marks, excess skin on the abdomen, and extra fat accumulated in the waist, hips, and thighs. The "UltraSlim Mommy Makeover" focuses on all of these concerns. **Pregnancy transforms your body. The "UltraSlim Mommy Makeover" converts it back.**

Fat Reduction Clinical Trial Results

Immediate Results. All patients lost fat immediately -- without dieting, exercise, drugs, or surgery.

Dramatic Fat Loss At Each Visit. Patients lost an average of 1,580cc of fat in just 32 minutes (3.5" combined waist, hips, and thighs). During one visit!

Works For Everyone. Every patient had clinically significant losses at each visit, ranging from 717cc to 4,608cc (1 5/8" to 10" from the waist, hips, and thighs).

A Safer Device. UltraSlim® Professional is the only fat reduction device classified in the lowest risk category as a Risk Group 1 device. There are no side effects, complications, or adverse events.

Durability. Patients seen at follow-up had lost an additional 1 1/8" of fat during the week following treatment. With UltraSlim®, patients lose the fat permanently through a natural bodily function known as "lipolysis", whereby the contents of their fat cells are excreted primarily in their waste. Once you flush the toilet, that fat cannot come back!

Of course, patients can gain weight in the future if they consume too many calories.
